**EURO MAX 126N/S TO OMIT AUCKLAND
LOOP A TO REPLACE AUCKLAND WITH TARUANGA**

MISC Agencies (NZ) Ltd wish to advise that the Euro Max will omit Auckland on the current 126N/S voyage and instead call Tauranga. All Import cargo destined for Auckland will be transported from Tauranga using Metroport, and will be available from Metroport Auckland.

MISC regret to inform that the Loop A will no longer call Auckland from the Euro Max 126N/S, and will replace this call with Tauranga for the foreseeable future. The service will now call Tauranga – Lyttelton – Port Chalmers.

This service change has been necessary due to the uncertainty created by the current industrial action at Ports of Auckland, and the need for certainty and to continue good and reliable services to all our Customers heading into the busy season.

If you have any queries in relation to the above information, please do not hesitate to contact your local MISC Representative.

If you do not wish to receive future messages of this nature from us, please contact:
